

# Flexilis<sup>®</sup>

RUBBER AND PLASTIC COMPONENTS

PERFECT BALANCE BETWEEN  
SHAPE AND PERFORMANCE

---

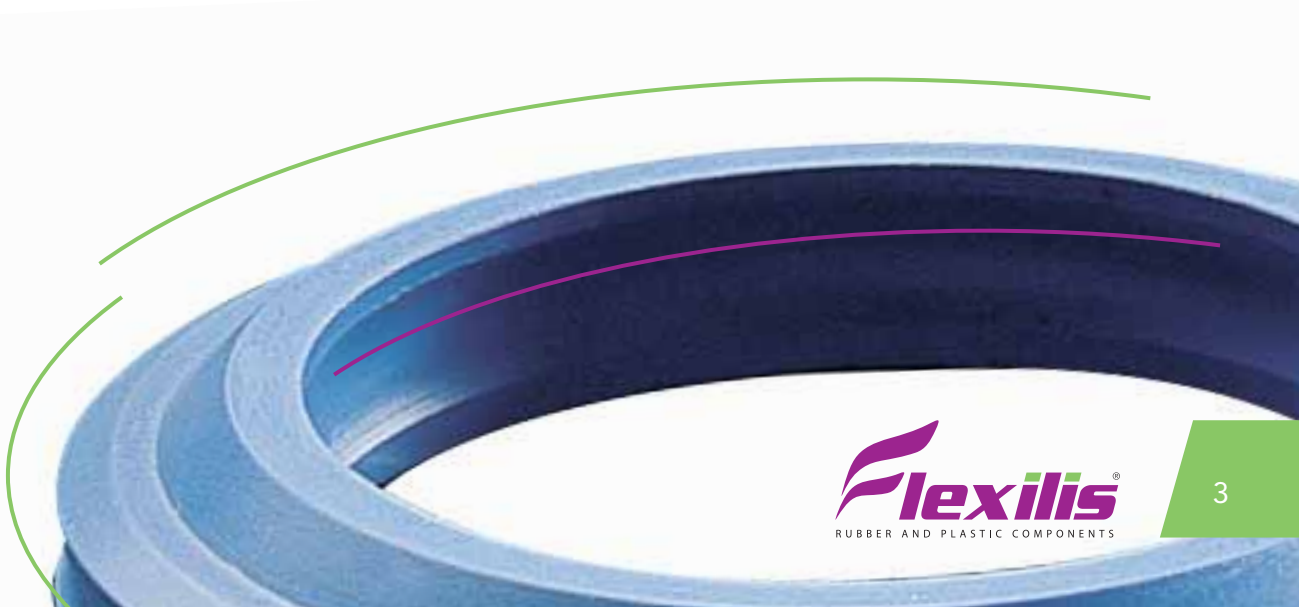

## EVERYTHING ACCORDING TO A PROJECT: **YOURS**

---

Experts in the production of technical articles made of elastomer, thermo-elastomer, and thermoplastic according to sample or customer design, without limits of shape, ranging in size from less than 1 mm up to 3.5 metres. Our ability is to understand and help improving the provision, suggesting technical solutions based on our experience in the most various sectors.

We design and manufacture moulds and equipment in-house. We have production units updated with the latest technology for **automatic or manual, injection or compression moulding**, with a closing force up to **1500 tons**.

Large numbers don't scare us and we even manage challenging job orders in a reliable manner, guaranteeing quality and respect of schedules.

# YOUNG BUT EXPERIENCED

**Flexilis:** the new business unit of the Orobica Plast-Gom Group, a company with over 35 years of experience in the production of rubber and plastic articles.

**Flexilis:** the best way to match the enthusiasm of young management with the experience of skilled technicians who know how to handle and satisfy the needs of an increasingly competitive and complex market.

since  
**30** YEARS

Men, experience, procedures, equipment ... all these are available for a technically flawless supply, made according to high quality criteria in total respect of human health and environmental safety, delivered according to the schedules and methods agreed upon: we can keep our commitments.

# FOR EACH SECTOR, KNOWN OR OTHERWISE

We produce all kinds of seals: lip seal, valve seal, customised, with a plastic or metal insert, o-rings, sealing rings, collars, scrapers, diaphragms, vibration dampers, bellows, frames, etc.

Our experience is consolidated in various sectors:

PACKING, PACKAGING, PNEUMATIC, HANDLING,  
ROBOTICS, FOOD, PHARMACEUTICAL,  
CHEMICAL, AUTOMOTIVE, AERONAUTICS,  
INDUSTRY, HOUSEHOLD APPLIANCES,  
ELECTRONICS, ETC.

But what really motivates us is that:  
we have a solution for the problems  
we have not yet been faced with!

# WE KNOW THE MATERIALS AND WE INNOVATE

---

We use all types of **elastomers, thermo-elastomers, thermoplastic, liquid silicone**, etc. but, above all, we know how to combine them and how to apply them to specific requirements, finding the best solutions in all conditions of use and verifying the materials with which our components are in contact during use.

We manufacture products made of:

HNBR, **EPDM**, VMQ, **FVMQ**, FKM, **FFKM**, **CR**,  
ACM, **NBR**, LSR, **PA**, POM, **ABS**, TPE, TPU, **PEEK**...

EPDM, VMQ, FVMQ, HNBR, PA, POM, ABS, HNBR, ACM, NBR, LSR, PA, FKM, FFKM, CR, ACM, VMQ, FVMQ, FKM, FF

▶ ...and conforming material to particular customer specifications, for various sectors.

EN549, EN682 ...

▶ Automotive

MIELE, BOSCH ...

▶ Oil and Gas

▶ Household and electronic appliance

EdF ...

▶ Food

▶ Nuclear

▶ Functional

UL, WABCO, AMS ...

ASTM D2000, BMW, DBL, GME, FIAT, FORD, IVECO, MAN, PSA, VOLVO, VW ...

ACS, FDA, BfR, Wras, KTW, 3a-Sanitay Standard, USP Class VI, EN681.1 ...

VMQ, FKM, HNBR, EPDM, NBR, LSR, PA, POM, ABS, CR, ACM, NBR, LSR, PA, POM, ...

Via Gioacchino Rossini, 28 - 24060 CREDARO (BG), ITALY
